

City of St. Louis  
Criminal Justice Coordinating Council  
Information Sharing Governance Committee

Tuesday, September 29, 2020  
Virtual Meeting

## Agenda

Topics	Facilitator
<p><b>Welcome</b></p>	<p><b>Nathan Graves</b></p>
<p><b>Local Warrants</b></p> <p>Chief Hayden has previously authorized the release of local warrants to the Missouri Uniform Law Enforcement System (MULES) operated by the Missouri State Highway Patrol (MSHP). He did this as a matter of officer safety. This is a critical system that all law enforcement, criminal justice, and other authorized governmental agencies operating in the state utilize. Currently, local warrants for the City of St. Louis are held at the local level in LeWeb which is a law enforcement subscription application owned by the vendor, REJIS; up until recently, local warrants were not sent to MULES due to the FBI's NCIC requirements (and manpower) involved related to "packing and validating" a state warrant which local warrants would have been subject to as well; MSHP relaxed these rules for local warrants in 2018 which holds local warrants within MULES only and are not sent to NCIC; in this way, local warrants are not subject to the same rules (and manpower) as state warrants. Law enforcement agencies that are not REJIS customers do not have access to these warrants including the FBI, US Attorney's Office and the MSHP. Work on this project was delayed so that this Committee could work with REJIS to address technical issues related to state warrants and municipal court dispositions. These issues have been successfully resolved. It is vital that this project be realized as soon as possible. The SLMPD is directing REJIS to apply the technical rules used in Kansas City and other REJIS customers that send local warrants to MULES, and to do so without manpower intervention from the SLMPD which the relaxed rules permit.</p>	<p><b>LTC Michael Sack</b></p>
<p><b>Improve Criminal History Information - Live Scans</b></p> <p>MSHP appropriated funds that allowed the City of St. Louis through this Committee to acquire four (4) Livescan fingerprint capture devices. Three (3) will be placed in SLMPD area stations and one (1) will be placed in the Circuit Court. Additionally, the CJCC was awarded National Criminal History Improvement Program (NCHIP) funds to support the improvement of complete and accurate criminal history information sent to MULES. Some of these funds will be used to acquire one (1) Livescan fingerprint capture device for the Circuit Court's Municipal Court Division in the second quarter of 2021. The Municipal Court Division will be transitioning to "Show Me Courts" which is an Office of State Courts Administrator (OSCA) application. Use of the remaining NCHIP funds is under discussion by this Committee. One option is to use the funds to acquire a Livescan fingerprint capture device for the City's Corrections Division so that all individuals are biometrically identified upon intake and release, and those individuals who have not previously been fingerprinted for criminal history purposes. We will review the planned flow of the SID and OCN and the gaps this Committee needs to address.</p>	<p><b>Debbie Allen/ Mark Perbix</b></p>

<p><b>Update of the Sheriff's Business Process – Update</b></p> <p><b>Move to Confined Dockets to WebEx</b>  To meet the challenge of COVID-19, the Circuit Court, Sheriff's Office, and City's Corrections Division collaborated to move confined dockets to WebEx. Confined defendants who are heard before any court division connect to Court proceedings from three rooms at the City's Justice Center and one location at the Medium Security Institute (MSI).</p> <p><b>City's Justice Center MOU - Update</b>  There are multiple agencies that utilize the City's Justice Center including the City's Corrections Division, SLMPD, the Sheriff's Office and the Circuit Court's Bond Office. A MOU is necessary to define roles and responsibilities regarding the movement and custody of the arrestees, detainees, and visitors.</p> <p><b>Justice Information Sharing</b>  -Status update on the CJCC Intergovernmental Information Sharing Agreement (IISA), and the impact to this Committee.</p> <p><b>Governor's Justice Reinvestment Initiative</b>  As part of the Justice Reinvestment Initiative, the State of Missouri through the Governor's Office received grant funding from the Bureau of Justice Assistance, through the Council of State Governments Justice Center. The grant will be administered by the Missouri Department of Corrections. A portion of that funding is being made available to local communities through "criminal justice leadership teams". The CJCC has been identified as the "criminal justice leadership team" for the City of St. Louis and will be applying for funding (up to \$50,000) to support the Medication Consistency Initiative.</p> <p><b>Agency Updates</b></p> <p><b>Adjourn</b></p> <p style="text-align: center;"><u>Virtual Meeting Participation</u></p> <p style="text-align: center;"><b>Please join my meeting from your computer, tablet or smartphone.</b>  <a href="https://global.gotomeeting.com/join/317081845">https://global.gotomeeting.com/join/317081845</a></p> <p style="text-align: center;"><b>You can also dial in using your phone.</b>  United States: <a href="tel:+13127573121">+1 (312) 757-3121</a></p> <p style="text-align: center;"><b>Access Code:</b> 317-081-845</p>	<p><b>Mark Perbix</b></p> <p><b>Sherri Schafer</b></p> <p><b>Judge Dierker</b></p> <p><b>Shannon Dunham</b></p> <p><b>Debbie Allen</b></p> <p><b>All</b></p> <p><b>Nathan Graves</b></p>
